

2. Database schema :

SUPERVISORS(SSN, Name, Address, Title, Department)

STUDENTS(StudentIDNo, Name, Year, Department, GPA)

PROJECTS(PID, Title, Description, SSN)

TEAM LEADER(StudentIDNo)

PROJECT TEAM(TeamID, TName, Semester, PID, StudentIDNo)

MEMBER OF(StudentIDNo, TeamID)

REPORTS(id, Title, Full document, Date of submission, TeamID, SSN)

SQL commands :

```
CREATE TABLE Supervisors (SSN CHAR(11),  
                             Name CHAR(50),  
                             Address CHAR(100),  
                             Title CHAR(15),  
                             Department CHAR(30),  
                             PRIMARY KEY (SSN))
```

```
