

# CEN429

# Introduction to Data Science

Assoc. Prof. Dr. İlker ÜNAL  
CUFM Dept. Biostatistics

## About Course

### ➤ Aim of the course:

- ✓ By the end of the course the students will learn the basic tools that they need for data analysis. At the end of the course the students apply these tools and techniques to analyze a real-world problem by using R.

### ➤ Course covers

- ✓ the topics needed to solve data-science problems, which include data preparation (collection & integration), data characterization & presentation, data analysis (experimentation & observational studies), and data products using R.

### ➤ Recommended or Required Reading

- ✓ Cathy O'Neil and Rachel Schutt. Doing Data Science, Straight Talk From The Frontline, O'Reilly. 2014
- ✓ Golemund, Garrett, and Wickham, Hadley (2017), R for Data Science, O'Reilly.

Assoc. Prof. Dr. İlker ÜNAL

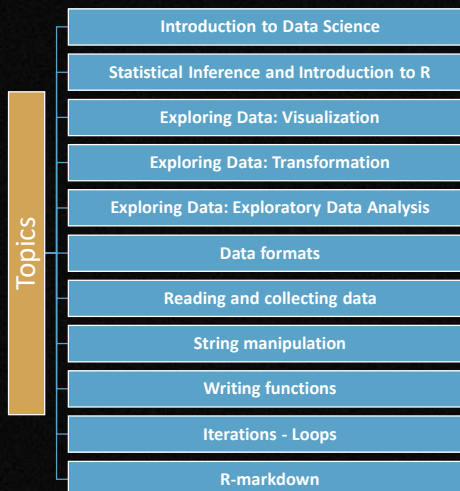

## Assessment Methods

- In-Term studies
  - ✓ Assignments (3) – 40%
- Final assessments
  - ✓ Project (1) – 60%

Assoc. Prof. Dr. Ilker ÜNAL

## Course Syllabus

Assoc. Prof. Dr. Ilker ÜNAL

## Contact

- All questions can be asked using MS TEAMS
- Also you can write an e-mail: [ilkerun@cu.edu.tr](mailto:ilkerun@cu.edu.tr)
- Office :
  - ✓ Halk Sağlığı – Biyoistatistik Binası
  - ✓ Kat 1 – Sol Koridor
  - ✓ Oda no : 2
